

Service document: Streaming

inspiring
people

It is not always possible for all guests to visit your event at RAI Amsterdam in person. To ensure that your guests still can take part, you can offer them the chance to watch the different speakers, sessions and presentations online using our dedicated streaming service.

Streaming sessions live helps maintain a sense of involvement with an event among your guests. And because the stream is recorded you also meet the growing demand for flexible digital communications among your target group. Information can also be shared for longer periods.

Benefits for your attendees

- > Your attendees can participate in the event without any travel or physical contacts
- > Attendees can view presentations live
- > You offer your attendees a fully-fledged alternative

Benefits for you as an organiser

- > Increased post-event involvement and engagement, by posting the sessions on your website.
- > You secure the continuity of your event
- > If your event website has a member login system available you can ensure that guests have to first log in to view the content of the streams. This protects your income and the exclusivity of your materials.

Requirements

- > A laptop with an HDMI or VGA connection is needed to upload a presentation

Streaming service contents

- > Full internet and audio/video integration with expert advice and support
- > Direct stream to a URL from our platform that you can embed in your website and make accessible via member login
- > Recorded sessions can be downloaded once completed
- > Optional 'picture-in-picture' of the speaker
- > Power and internet
- > Hosting the recorded stream for one month on our platform
- > Excludes any editing of the recording

Costs from (ex. VAT):

½ day	€ 1,850	3 days	€ 3,950
1 day	€ 2,350	4 days	€ 4,950
2 days	€ 3,250
